

Package ‘aidR’

July 30, 2018

Title Load,

Version 0.0.0.9000

Description The aidR package does this and that.

Depends R (>= 3.4.1),
ggplot2,

License MIT

Encoding UTF-8

URL <https://www.schliebs.github.io/aidR>

BugReports <https://www.github.com/schliebs/aidR>

LazyData true

Imports plyr,
tidyverse,
hrbrthemes,
leaflet,
lubridate,
magrittr,
rgdal,
sp,
stringr

RoxygenNote 6.0.1

Collate 'importFrom.R'
'test_demonstration.R'

Suggests knitr,
rmarkdown

VignetteBuilder knitr

SystemRequirements GNU make

R topics documented:

testLuca	2
Index	3

`testLuca`*Dirichlet-sample of a multinomial election poll*
